BOOK SYNOPSIS

Moving back and forth between the long shot on historical trends and close-ups on major works and crucial architectural themes, this insightful, lively and original analysis also accepts the conventional period and thematic structures of architectural history and the canon of great buildings. Designed to help readers understand and appreciate what great architecture is in its full dimensions of use, structure and aesthetic qualities as well as its history, this lavishly illustrated book explains specific qualities of each period and the often-complex illuminating differences between the periods. This comprehensive volume examines all aspects of architectural history from the Ancient world, the Middle Ages, the Renaissance and Baroque periods through the modern world. For historians and architectural enthusiasts.
