BOOK SYNOPSIS

Flowers have been used for centuries to decorate celebratory cakes. This book starts by describing the different materials used in flower art: essentially for the purposes of this book, gum paste and fondant. Next, there are core techniques: learn these and you'll be able to make any flowers; the main section is the "sugar flower directory", which shows how-tos for 30 different sugar flowers, many so lifelike you want to inhale their scent, and including some extraordinary fantasy creations. The different examples are flagged by skill level, and are appropriate for a range of themes and occasion cakes (Christmas, weddings, christenings) or simply to give as gifts (wedding favors, Mothers Day, Valentines, indeed any occasion when you might be inclined to give flowers, give a sugar flower crafted with care and made with love.)
