BOOK SYNOPSIS

Here for the first time an extraordinary cookbook whose roots go back over two hundred years and begins where others fear to tread. Banned from sea-level cookbooks, there are 36 states over 2,400 ft., so 1/3 of the nation has to adjust to sea-level recipes, this indispensable diverse book teaches the secrets and support on information that is often misleading. Part 1 has 6 major instructional chapters each with problem solution charts for fail safe baking, teaching how to successfully modify any sea-level recipe, with over 300 delicious historical and original recipes all with measurements from sea-level to 10K ft.. Featuring lost arts, such as multiple bread braiding, regional beaten biscuits and fabulous recipes like Prohibitions "Jack Daniels Chocolate Cake and 1902s "Oklahoma Rocks", from a territory so tough even the cookies have an attitude ! Part 2 is the A-Z Encyclopedia covering everything that affects baking at the highest elevations, with historical and current information, traditional recipes, tips and substitutions from the cross-roads of America, creating an essential reference classic. This baking encyclopedia exemplifies the great need that has been missing in American cooking. Easy, delicious and time saving treats. While not for locals only, this bakebook will benefit all from sea-level to mountain residents, ideal for new brides, R.V.s, vacationers, singles to seniors and everyone else !
